*One Gigabyte (GB) means one billion bytes and one Terabyte (TB) means one trillion bytes. Total available capacity will vary based on operating environment, and your results and storage capacity will vary accordingly. A computer operating system, however, reports storage capacity using powers of 2 for the definition of 1TB = 2⁴⁰ = 1 099 511 627 776 bytes and therefore shows less storage capacity.

*Compatibility may vary depending on user's hardware configuration and operating system. Please check device compatibility and connecting instructions by reviewing the applicable user manuals for such device. Compatibility is based on information currently available and is subject to change and subject to restrictions per hardware specifications.

* USB Type-C® and USB-C® are registered trademarks of USB Implementers Forum. * Mac and iPad Pro are trademarks of Apple Inc., registered in the U.S. and other countries.

* Canvio and the Canvio logo are trademarks or registered trademarks of Toshiba Electronic Devices & Storage Corporation. * Other company names, product names, and service names may be trademarks of their respective companies.
