SATATYA MITC80FL60CWS P2

8MP All Color Camera with 6.0mm Lens

Matrix All Color Cameras are engineered to provide vibrant colored images even in challenging low-light or no-light scenarios. These cameras feature warm LEDs, ensuring full-color performance 24/7. With the turret enclosure, these cameras offer easy axis adjustment post-installation, minimize reflections with chambered LEDs, and reduce fingerprint smudges on the glass due to a smaller glass area.

Furthermore, the camera offers built-in video analytics such as motion detection, intrusion detection, tamper detection, and tripwire detection to aid you in proactively handling potential risks. Finally, backed by national and international certifications, these devices guarantee maximum operating time without failure.
