

# TRITON II 360SE

## RULES WATER. RULES POWER.

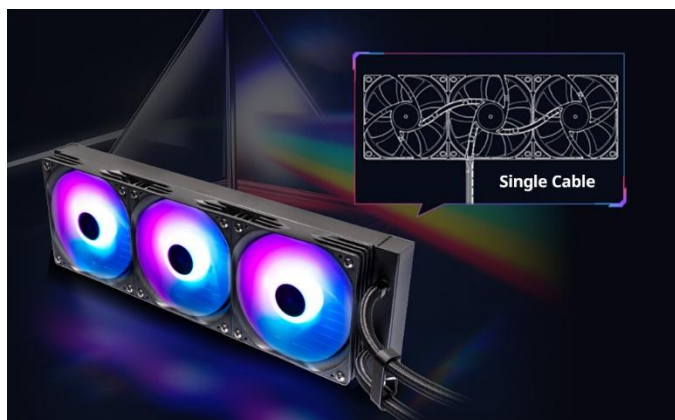

### TRITON II 360SE All-in-One CPU Liquid Cooler

XPG TRITON II 360SE is the go-to AIO liquid cooler for mainstream gaming PCs that is so adaptable and easy-to-use. It features single-cable design and pre-installed 3-in-1 unibody fans for quick setup and easy installation. Plus, the detachable pump cover adapts to whatever tubing orientation you prefer. With cooling capacity of up to 300 watts and infinite mirror aesthetic, it instantly upgrades not only the performance but the appearance.

**Detachable Pump Cover with  
Infinite Mirror Aesthetic**

**Pre-installed 3-in-1 ARGB  
Unibody Fans with Single  
Cable Connection**

**Up to 300-watt TDP For  
Modern Multi-core  
Processors**

**All-Aluminum Radiator**

**3-Year Warranty**

## Features

- Detachable Pump Cover with Infinite Mirror Aesthetic
- Cooling Capacity of up to 300 watts TDP
- Pre-installed 3-in-1 ARGB unibody fans
- Single Cable Design for Easy Installation
- PWM Pump and Fan Control for Better Efficiency
- Compatible with Intel LGA 1851, LGA 1700, and AMD AM5

## Specification

|                             |                                                    |
|-----------------------------|----------------------------------------------------|
| Color                       | Black / White                                      |
| Water Block Dimensions      | 83 x 67 x 48 mm                                    |
| Water Block Material        | Copper                                             |
| Pump Control                | PWM (4-Pin)                                        |
| CPU Socket Support          | Intel: LGA 1851, 1700, 1200, 115x<br>AMD: AM5, AM4 |
